OCCIDENTAL WILL BAR GIRL STUDENTS

"Girl Must Go," Decide Trust-
tees—Co-Education Feature
Has Been Abolished

Los Angeles Examiner: Occiden-
tal College, for twenty years a lead-
ing factor in the education of young
men and young women of Los Angeles,
has abolished the co-education fea-
ture. The girls must go.

The reason for this action, as given
out by President John Willis Baer, is
that the Pacific Coast needs a college
for men exclusively and that, through
the change, Occidental will become
distinctive and potent for bigger
things.

The decision was reached yester-
day by the Board of Trustees after a
campaign of opposition by the co-eds,
more than half of the men students
and the united strength of the alumni
association, which numbers many of
the professional and business men of
Los Angeles.

Not in the Market
"You want the initiative and refer-
endum!" said the campaigner.
"No," replied Farmer Cornstossel.
"I've gone in far all the new inven-
tions that come along and I ain't go-
in to try to learn how to run any-
thing more."

Varsity Boat Race Off—Boats Over—Men Out

LONDON, March 30.—The an-
nual Oxford-Cambridge boat race
was declared no contest after a
choppy sea had overturned the
Cambridge shell, and the occu-
pants swam ashore. The Oxford
shell also partially filled, and the
men rowed ashore, dumped the
water and finished the course in
slow time.

The race officials, on a protest
from Cambridge, declared that
there was no race. The Oxonian
captain has agreed to race again
on Monday. Oxford was easily
placed.

RECREATION FOR ENGLISH CLASSES

SACRAMENTO, March 30.—Under
the title "Two California Neighbors,"
a pamphlet on John Muir, author and
naturalist, and John Swett, school-
master and author, has just been is-
sued by Superintendent Edward Hiv-
att and is now being sent to school
people in the state. The book is in-
tended to be a recreation for English
classes, and is designed to help foster
among California school people and
children an appreciation and love for
some of our California authors.

Sketches of both men are presented,
with extracts from their writings.
Of its purpose the book says: "It
is well to remember that the real ob-
ject of literature is to give pleasure
—to give pleasure by stirring our
emotions. Unless we find out how to
get pleasure out of reading outside of
school and class room, unless we
learn to turn to books gladly as
friends when the teacher is gone,
then our work has been to little pur-
pose. It is well to postpone the nic-
eties of belles lettres, the fine spun
literary criticism of college and
university until our boys and girls
can read—read and grasp and enjoy!"

This pamphlet is the second in a
series, the first of which, "A Calaveras
Evening," dealing with Mark
Twain and Bret Harte, appeared
some time ago.

The "Baby McKee" Jokes

One day, in the course of business,
I found myself in Mrs. Harrison's
presence. That she was suffering
needed no telling. She had been
reading some of the newspa-
pers; and as I approached she raised
her eyes and exclaimed:
"Oh, Colonel Crook, what have we
done!"

Shocked at her appearance I said:
"I do not understand, madam. What
do you mean?"

"What have we ever done," she ex-
claimed, "that we should be held up
to ridicule by newspapers, and the
president be so cruelly attacked, and
even his little, helpless grandchildren
be made fun of, for the country to
laugh at?"

For a moment I did not know what
to reply; and she continued:
"If this is the penalty for being
president of the United States, I hope
the good Lord will deliver my hus-
band from any further experience."

Platinum

The national jewellers' board of
trade has started a movement to ob-
tain legislative action for the proper
marking of platinum, to distinguish
the pure from alloyed metal. The
jewelers want some law enacted
such as now covers gold and silver.
With the absence of any regulation
and the increased use of platinum
some unscrupulous dealers have sold
alloys for the real metal. To prevent
this fraud a nation wide crusade has
been started for the protection of
buyers of platinum.

drawn by a subway scales committee

minous coal miners of five cents per
ton for lump coal after it has been
put through the screens of three
cents per ton including the screen-
ings. Approval of the compromise
was assured this morning when the
joint committee re-assembled for final
action.

The compromise will be immedi-
ately submitted to a referendum vote

sult, all work will be suspended. Six
hundred and fifty thousand miners
will be idle during the interim.

NEWSY LETTER FROM NATION'S CAPITAL--HITS HERE AND THERE

How Cabinet Officers Use U.S. Employes As Personal Servants—Ammunition Against Champ—"Currencitis"

(By Robert Compton)
WASHINGTON, D. C., March 30.—The congressional inquiry into the statements that Secretary of State Knox is using as a valet on his present Central American tour a negro messenger carried on the State Department pay rolls calls to mind a practice that has prevailed in Washington for years. While the practice is not as common now as in former years, many high government officials still impress their messengers into service as valets, butlers and house servants on occasions when giving social entertainments.

Secretary Knox is perhaps no greater offender in this way than many other cabinet officers, past and present. On using as his valet Archibald S. Pinkert, who is employed in the mailing room of the State Department at \$1200 a year, he has established no precedent. Secretary of the Treasury MacVeagh has as his private messenger Richard Green, who does frequent service at the MacVeagh home as butler. Green was brought to the department by Secretary John G. Carlisle. During the tenure of Secretary Carlisle, Green alternated between the home of the secretary and the Treasury Department. When William Carlisle, son of the secretary, toured the world several years ago, Green went along as his valet, although carried on the Treasury Department rolls as a messenger. Another negro messenger in the Treasury Department who has done similar service at the homes of treasury officials is William Smith. Commissioner of Pensions Joseph Jackson, who has just completed 45 years in the government in the capacity of valet and house servant.

This explains to a certain extent why government officials prefer negroes to white men as messengers. The negroes as a rule are better fitted by instinct and training to act as household servants, and they make no complaint when called upon to do so. They are intelligent and alert and admirably please their official employers. They are paid from \$900 to \$1200 a year, and in addition to this exact nothing more than occasional "tips" for rendering private service. In not a few instances they have been rigged out with "livery" which they donned when doing butler service at the homes of officials after office hours.

Anticipating Colonel Roosevelt will be the Republican nominee and Champ Clark the Democratic nominee the Roosevelt campaign managers here are preparing some advance ammunition which they believe will be hurtful to the Speaker's presidential aspirations. This ammunition will be exploded when the time is believed opportune. It consists of a collection of extracts from the speaker's remark on the tariff as found in the Congressional Record. These utterances show that Mr. Clark has spoken as a free trader pure and simple, as a tariff reformer, as a supporter of holding the doctrine of a tariff equal to the difference in the cost of production abroad and at home.

These are a few of the speaker's utterances which the unfeeling Republicans have gathered: "I am a

free trader and I glory in the fact. If I had my way, I would tear them (the custom houses) all down from turret to foundation stone, for from the beginning they have been nothing but dens of robbers."

On March 17, 1909, Mr. Clark said: "I am not in favor of free trade all along the line in the condition we find ourselves. We have got to raise \$300,000,000 out of this bill (the Payne bill) whether we want it or not. So a man would be very unwise to be jabbering about free trade under these conditions."

On March 25, 1897, speaking for reform in government expenses, he said: "Cut down the army one-half. Abolish the Diplomatic Corps. It never was useful and sometimes not even ornamental."

Gifford Pinchot, former chief forester, declares that if congress cuts from the agricultural bill the \$1,000,000 intended to prevent and fight forest fires, more than \$2,000,000,000 of public property will be endangered.

The American Society for the Prevention of Cruelty to Animals intends to ask congress to pass legislation intended to protect innocent purchasers against the tricks of unscrupulous horse dealers. The society would punish dealers who "dope" or otherwise doctor disabled or crippled horses and offer them for sale.

Beware of new gold coins! You may get "currencitis," a new disease which has attacked the women clerks of the treasury who handle gold currency. The symptoms of the new malady are acute attacks of dizziness, sharp pains in the neck, followed by a severe headache. When several fair clerks were thus affected recently an investigation was made. So far local physicians have not been able to determine whether the ailment is conveyed by germs. For the treatment of "currencitis" cases, an emergency station has been established in the Treasury building.

Five West Point cadets recently dismissed for drunkenness may be saved by President Taft. They are from Virginia, Florida, Georgia and Delaware, and their re-instatement has been urged by Senators Martin, Fletcher, Bacon and du Pont, who do not believe that their offense warrants dismissal. The President has promised to investigate.

WITH 101 RANCH WILD WEST SHOW, HERE APRIL 4TH.

AMUSEMENTS

Wild West Show

The street parade given by the 101 Ranch Wild West Show, which will be here Thursday, April 4, is well worth seeing and it is a refreshing departure from other parades given by tented amusements. It is in no way partakes of the artificial and it is its homeliness that recommends it.

It could be truthfully alluded to as a typical Western caravan, and so pronounced is the Western atmosphere that surrounds it that one is carried back to the days when railroads and modern means of travel were wholly unknown in the West. It is the one continuous kaleidoscopic like review of the early days in the Western country. Not only is this parade wonderfully interesting and educational, but it is as well a fitting pride of the performances that has made the 101 Ranch show the most popular touring the country.

Sells-Floto Circus

To those who visit the Sells-Floto Circus when it arrives here on April 12, it might be well to hint that an early visit to the menagerie has its advantages.

The doors open one hour before the performance proper commences, and during that time the famous Sells-Floto Military Band, under the direction of Walter P. English, will give a popular concert in which several famous soloists will render special selections. There is no extra charge for this because the Sells-Floto people have always maintained it as one of the noted features of their entertainment. Among the popular numbers will be a cornet duet by Messrs. White and Cooney, and the celebrated sextette from Lucia, by Messrs. Werner, Dye, King, West, English and White. Miss Rutherford, who has no superior as a saxophone soloist, will also appear, rendering many of the latest and most popular descriptive selections.

AMERICA SCANDALIZED NATION TO ENDS OF EARTH SAYS FRED SMITH

No Corner of World Where Low Morals Of Men of United States Not Known And Commented on

NEW YORK, March 30.—"If every great evangelist in the world came to New York and camped upon Manhattan, the whole lot of them could not evangelize this town. They don't get to the men."

This was the statement of Fred B. Smith, leader of the Men and Religion Forward Movement and to it he added this:

"We are a scandalized nation to the ends of the earth. There is no corner of the world where the low standard of morals of the men of the American nation are not known and commented upon." Smith and the men who have enlisted under his standard—bringing men into closer touch with religion—have encountered numerous difficulties. Smith says they started to reach their goal in a manner somewhat like that followed by evangelists. It didn't get results. Men would not take religion when they could taste it, so he and his followers began trying to interest them through publicity and obtaining their attention through supporters that filled them comfortably and opened their minds to accept a religious teaching—a sort of capsule spiritual message.

"We give them a decent good time and get them interested in what we are doing, and first thing you know Mr. Man is on our side, enthusiastic about religious work, and willing to aid us, even loosening his purse strings—an evidence of genuine interest," explains Mr. Smith.

Speaking of the difficulty he encountered when he first attempted to get publicity for the Men and Religion Forward Movement, he said newspapers would not publish accounts of meetings and advance notices offered by the leaders of the movement.

the visitors to the menagerie, so in order to enjoy it, it will not even be necessary to enter the big tent until the performance proper commences.

"In Dis'a Countree" The title may impart little to the reader, but the many thrilling incidents prompting the above, are scenes and actual occurrences in the lives of a number of human beings, all of which are truthfully shown in this wonderful moving picture play at the Bell tonight and Sunday, at which time a new show of Photo Plays will be presented, with the Altons as a splendid vaudeville team in Black and White.

The Temple Theater will be open to the public next week for three nights commencing Monday, April 1. Two shows nightly will be given of "The Raising of the Maine," and while the Maine has been buried far out at sea, still we all "Remember the Maine" and these, the latest to be shown of that famous battleship, will prove of great interest to all, at the Temple, Monday, Tuesday and Wednesday nights.

"Make your religious articles as interesting as an account of a baseball game and we will give you space for them," Mr. Smith says—one editor told him when he complained that the organization's attempts to get publicity were meeting with failure.

"And that's what we've been trying to do and with considerable success," continued Mr. Smith. "You have been noticing a great deal more news about religious movements during the last few weeks than ever before. It is resulting from making religion an interesting thing. And the result we are looking for from that publicity is far greater interest in the Men and Religion Forward Movement over the entire country."

"Added to our newspaper publicity we have decided that electric current is a good boost when properly applied and we are nightly blazing into the minds of men the fact that we are on the job by large electric signs. And not only are we making our publicity notices unique and interesting, but we are making men enjoy themselves when we get them together."

When we invade the White Light district of New York you don't suppose we could induce men to center their minds upon religion unless we made religion just as interesting to them as we possibly could, do you? We could not. And more than interesting we have to make it literally enjoyable or they naturally prefer a Broadway show. You don't blame them. Neither do I. But the Men and Religion Forward Movement is changing their attitude toward religion and thousands of them are beginning to see that the best time they can possibly have is when they mix a generous quantity of religion with it."

COMMISSION GOVERNMENT ENDORSED

Without taking the position that Santa Ana ought to adopt the commission form of government, the Register believes, when we come to consideration of a special charter—as we soon must—the commission form should be carefully studied.

As evidence of the high regard in which that form of municipal government is held by those who have tried it, we present herewith a letter from Mr. Frank Bucher, cashier of the First National Bank of Bartlesville, Okla., addressed to Mr. Albert J. Perkins of this city:

Bartlesville, Okla., Jan. 16, 1912.
Mr. Albert J. Perkins,
Santa Ana, Calif.

My Dear Perkins:—I have your card of the 8th inst. and am glad you liked the calendar. Now in regard to what I think of a commission form of government, will say I am of the opinion that it is, everything considered, a good thing. It depends largely on the kind of commissioners you get, but three commissioners can handle the city's business much better than any city council can. I look at a city's business very much as I would one's private business. What is everybody's business is nobody's business.

The commissioners are paid to devote all of their time to looking after the city's interests, and if they are competent and honest men there is no question of their giving the city better service than a board of aldermen would or could, for these aldermen have their own business to look after and cannot afford to devote the time to looking after the city's interests, besides no one man has authority to act in any given contingency and there are lots of cases coming up all the time that require immediate action. If you had to consult a dozen men in your business before you could act how much would you get done?

We have the recall here, which I think you also have. This is a good thing in case you should get an incompetent or dishonest grafting commission.

Now these reasons probably have all occurred to you. There are many others, but for a business administration you can rarely ever have one with a board of aldermen, and a business administration is what we need. There is too much politics in everything from the little town government up to the head of our country. If we could eradicate the politician and their schemes the people could be trusted to put men in office who would look after their interests.

Yours very truly,
FRANK BUCHER.

Governor Johnson is to help out the Roosevelt cause in Nevada, in return for Governor Oddie's assistance as a speaker in California. Colonel C. R. Reeves of Reno has been appointed state manager by Senator Dixon. Efforts will be made to have county central committees provide for a preference vote.

"There is no question but that the people of Nevada are overwhelmingly for Roosevelt," says Colonel Reeves. The Reno Journal says it is probable that the state's six delegates will go

FROM THE CALIFORNIA OUTLOOK

For women to think about:
The papers that are supporting Taft are the papers that opposed women's suffrage.

For honest people to think about:
The big papers that are supporting Taft (with two exceptions) fought the graft prosecution in San Francisco.

For independent people to think about:
The papers that are supporting Taft stood with the bosses, the Southern Pacific machine and the Old Gang.

For fair-minded people to think about:
Most of the papers that are supporting Taft opposed the Direct Primary.

For self-respecting people to think about:

The papers that are supporting Taft fought direct legislation and the rule of the people.

For progressives to think about:
The papers that are supporting Taft fought Johnson and the reform program.

For the Common People to think about:
The papers that are supporting Taft are mostly snobs; truckling to the rich and sneering at the poor.

For Americans to think about:
The papers that are supporting Taft are maligning Theodore Roosevelt—the best friend the people have had in high office since the days of Abraham Lincoln.

PUBLIC OWNERSHIP THE SOLUTION

BY EDWARD P. E. TROY.

The use of electricity for light and power is now universal. At a slight cost, it may be conveyed anywhere. In the city, on the farm and in the mountain districts, it is used to operate machinery and illuminate streets and public buildings. The people of California, permitted corrupt corporations to gain control of many sources of this power. The consumers are now paying heavily for their indifference. Many places, though, have secured reductions by building public electric plants.

Recent constitutional amendments permit counties to supply electricity. By building public plants at central places, from which the current may be delivered to every part of the county, farmers and small towns can be freed from the high charges of companies, as well as the people in the city.

The claims of the Pacific Gas and Electric Company, the monopoly that controls all of central California, illustrate the danger of permitting private monopoly of a public service. Although its receipts from electric sources in San Francisco are \$2,789,042, it charges nine cents per kilowatt for current. This rate is from 12 1/2 to 125 per cent greater than is charged by eight of the fourteen small publicly owned electric plants in California. Yet, the receipts of this company in that city are more than five times greater than the total of all the public plants in the state.

In San Francisco, it is demanding a continuance of this extortionate rate, while in Berkeley, across the bay, it is advertising: "Our policy is to reduce rates," and announces the charge has been reduced to seven cents in that small city. Doubtless the example of the long-existing seven-cent rate of Alameda's municipal electric plant is causing Berkeley to consider a similar system, as has been proposed by Mayor Wilson. Even gas has been reduced by this company to 90 cents in Berkeley since Mayor Wilson took office, while it is charging from \$1.25 to \$1.50 in nearby places.

In a statement signed by its vice-president, this company demands that it be permitted to collect a rate in San Francisco that will pay its

to Chicago unimpaired.

According to the primary law, the presidential delegates chosen May 14 may select their own alternates. Newspaper report suggests that standard leaders of California put obscure men on the Taft ticket who could be sidetracked in order that they themselves might be at the national convention should their ticket win in California. The Roosevelt ticket, on the other hand, was made up with a view to providing some heavy artillery for the aid of Roosevelt in the great battle that is likely to occur at Chicago.

TO HIS CREDIT

With the nation wide, and probably world wide, coal strike situation assuming proportions of vast magnitude, thinking people are turning their minds to what was done and by whom, when a similar crisis occurred in this country.

The Washington Herald in an editorial under the caption "To the Credit of Roosevelt," says:

"With the country facing a coal strike of gigantic proportions, it is worth while to remember that when a similar crisis once occurred, Theodore Roosevelt, then president of the United States, created a commission which listened patiently to all the facts upon both sides of the controversy and then settled the contention

operating expenses, maintenance, interest, depreciation, sinking fund and 10 per cent of its immediate capital investment. In this statement, this company assumes its entire capital investment to be the money obtained from sales of bonds, and they were sold for \$19,677 on the \$10,000, and also that the stock does not represent a dollar of investment.

In other words, it demands that consumers pay for the depreciation of the plant, so that the company shall have it as good as new at any time, and also that they shall pay the sinking fund for the bonds, in order that the company shall have the new plant without investing a dollar in it. They demand that the people pay their debts, so that they may own the property without cost. In addition, as the bonds require the company to invest \$100 for every \$900 loaned, they demand that the consumers pay this \$100 of capital investment in the rates. And the company is to own the plant, not the consumers, whom they demand shall pay for it.

And this is no joke, either. It is made seriously, in a printed argument, signed by officials of the company. Railroads and other public service corporations are making the same demand, that they be permitted to charge such rates as will compel the people to pay all of the capital investment. They have forced them to do this for years secretly. Now they have become so bold, under the leadership of the Morganheimers of New York, that they openly demand legal approval of their divine right of public plunder.

Regulation has been tried by the cities of California for over thirty years, and in other states by commissions. Everywhere it has proved a failure. If an honest commission reduces rates, the courts are ready to annul them. Public ownership has been successful, not only in reducing rates in the places affected and surrounding neighborhoods, but it has developed a clean, healthy, moral tone in the communities. The receipts of public plants have never been used to bribe public officials, as has been done almost universally by public service corporations in San Francisco and almost everywhere else.

by arbitration.

"It was not a constitutional duty, perhaps, of the president, but it was an action which took a courageous spirit and was justified by results. It was a typical Roosevelt incident, parallel to his course in the Russo-Japanese war."

"Perhaps the precedent then set by President Roosevelt will be followed now and a strike averted by a judgment rendered by some impartial tribunal. It would certainly seem as if, in these days of modern civilization, the distress and danger of a wide-spread strike ought to be avoided. It is certainly inexcusable that in a nation which ranks foremost in a high order of intelligence, innocent people must be compelled to suffer because labor and capital disagree."

HAPPY AFTERNOON

Workers in S. S. Home Department Met in Social Way—Formed New City Union

The Home Department of the First Methodist Sunday school met yesterday afternoon at the Philanthropic room of the First Methodist church, with the superintendents of all the other Sunday schools of the city present. A delightful afternoon was enjoyed, one of the principal features being an address by Miss Allen, the state superintendent of the home department work. A reading by Miss Friton was greatly enjoyed, as was a solo by Miss Margaret McElree.

An important step in department work was the formation of a city home department union to meet quarterly. The first meeting of the new organization will be held in the new United Presbyterian church the last Friday in June. The officers of the new union are Miss Edna Masters, president, and Miss Sarah Finley, secretary.

Following the completion of the organization, the company joined in a social hour during which refreshments were served.

Santa Ana Graduates

The names of Misses Gracia Frances Benus, Almee Bordieu, Louise Grouard, Marie Harding, Lela and Elaine Jackson of Santa Ana, appeared in the list of graduates receiving their diplomas yesterday from the Los Angeles Normal school.

Fifty-one young women composed the 1912 normal graduating class which was addressed by Dr. Jesse J. Millsap, who spoke on the future work of the graduating students. The speaker also complimented the students on the simplicity of their graduating gowns.

The friends of the Santa Ana students congratulate them on their successful work in the normal and wish them success in their future educational endeavors.

Miss Amelia Edgar Hostess to Party of Charming Young Maids and Matrons

One of the prettiest luncheons of the season was given today by Miss Amelia Edgar at the spacious Edgar home on Orange and Chestnut avenues, when she entertained with a one o'clock luncheon in honor of the young women who will attend her at her wedding to Mr. Edwin Barnes on June 1. The group included Mrs. Clyde Horton, matron of honor, and the bridesmaids, Misses Margaret Nichols, Gladys Beckett and Lolla Roper of Los Angeles; Miss Ethel Roper of Santa Ana.

The luncheon was a pink one, harmonizing with the loveliness of spring. The table was abloom with exquisite pink tints. Overhead was a wedding bell of lovely cherry blossoms with streamers of pink chiffon radiating to the corners of the table over which were strewn sprays of cherry blossoms and greenery. Pink roses adorned the hand-painted pink cards.

A bevy of close friends of the bride-to-be were invited to meet the honor guests in the afternoon, when the guests passed delightfully. These asked were Mrs. Cecil DuBois, Mrs. Will Spurgeon, Mrs. Roy Peterson, Mrs. Hugh Plumb, Misses Lena and Hazel Thomas, Vivian Clayton, Verna Peterson and Miss Marvel Baker.

Millinery Showings

Miss Schumacher of one of the most brilliant openings this week that she has ever known. It continued through two days and was particularly devoted to the showing of dress hats. These were the very acme of style, the rich material in the chapeaux, both in frame and material, being shown off to perfection.

The hats shown by Miss Schumacher are artistic, beautiful and glowing with style. They equal the best productions shown in Los Angeles and are deservedly meeting with popular favor.

Wilhelm and Anderson

This enterprising firm was successful in millinery openings held this week, their spring display of chapeaux and trimmings being much admired by the pleased crowds that visited their parlors.

Many practical as well as elegant hats were shown, and large sales are being made as a result. The walking hats shown here are particularly noteworthy.

Baseball Team Feasted

"Between the game and the home run" When the night is beginning to lower, Come a pause just after the victory. That is known as the "hungry hour."

So on Saturday, March the Thirtieth, when the Santa Ana team you meet, come pay your last inning at our house. Nine Hundred and Ten, French street.

The above was the clever worded invitation with which Miss Irene Beatty, teaching in the Fullerton High School, gladdened the hearts of the baseball team of that school playing this afternoon in this city with Santa Ana High School team. The invitation was joyfully accepted and this evening at 5 o'clock the young men, with Principal Brunton, of the Fullerton High School, were to be honored guests at a three-course luncheon at the Beatty home at "910 French street."

The "hungry hour" was a slight inconvenience to suffer for the pleasure of having it appeased with the "spread" that was prepared for the players. A three-course supper of substantial and delicious was prepared, with decorations symbolical of the many game of baseball. A centerpiece of realistic bats and balls was staid and delicacies was prepared, adorned the table with place cards of baseballs. The ice cream was frozen in baseball form. Covers were laid for fifteen.

Invitation To Ladies

Owing to the many patients which we have under treatment at Santa Ana, the Radio Specialist of the Therapeutic Institute of Los Angeles has made arrangements to make regular visits at Rossmore Hotel on Tuesday of each week until further notice from 9 a. m. to 4 p. m. Every suffering woman is invited to call for free consultation and advice.

Among the vast number of women patients fully three-fourths tell of having previously submitted to some painful and dangerous operation, involving in most instances the sacrifice of some important organ, and that, too, without the slightest relief or benefit, while many find their sufferings to have been aggravated and intensified.

Our treatment saves suffering women from dangerous surgical operations. It has proven efficient, reliable and successful in all manner of diseases of women. It has cured the most severe cases of inflammation and congestion of the womb, inflammation and congestion of the Ovaries, Ulcerations, Fibroid Tumors, Ovarian Tumors, Incipient Cancers, Falling of the Womb, Irregular, Profuse, Painful Menstruation, etc.

A Simple, Safe, Reliable Method That Cures Quickly Without Drugs, Caustics or Operation—No Knife, No Pain

Our treatment is applied directly to the affected parts. It is mild, soothing, healing, and has immediate effect. Some cases are cured with one or two treatments—there is no shock, no pain. A cure from this treatment is guaranteed to be permanent.

If you have failed to get relief from old-time methods of treatment, do not despair—there is still hope and help for you.

Every Afflicted Man and Woman is invited to come and talk with us about his affliction and let us demonstrate free the means we have employed successfully in hundreds of other cases.

GOOD TIDINGS FROM SAN JACINTO

Great Excitement Over New Water Discovery

An immense Underground Lake of water has been discovered near San Jacinto, California. A mere crust of earth, in some places but a few feet in thickness, has shielded for ages an immense body of water, sufficient to flood the entire country for miles around, which means that this fertile, semi-tropical beauty spot will in short order be the Garden of Eden of the whole state. All these lands are unsurpassed in fertility, productiveness and climatic conditions. All of which is proven by the thousands of acres of beautiful orchards and thrifty ranches under a previous water development. We state, without fear of contradiction, that this neighborhood contains a greater number of

well kept fruit orchards than any other section of equal size in the whole state of California, and we state further that they will show a much greater percentage of profit. There is no scale or pests to fight, or failures to sadden the heart.

A committee with autos has been appointed to show everybody around free, and we extend a hearty invitation to all of our good neighbors to see this beautiful little valley of ours in all its glory. Come over on the Santa Fe in the morning, back in the evening. The San Jacinto Board of Trade, San Jacinto, Cal.

COLOR SCHEME OF AFFAIR WAS GREEN

ANAHEIM, March 30.—Mrs. O. A. Mullinix entertained the Alfalfa 500 Club at her home Wednesday afternoon. The afternoon was spent at 500, and every one of the members present had a very enjoyable time. The prizes corresponded to the general scheme of decoration, which was of St. Patrick's color. The first prize, a green jardiner with a green fern, was presented to Mrs. E. Olmstead. The second prize, a bon bon dish, was given to Mrs. Hessel. The consolation prize went to Mrs. W. V. Conklin. It was a bottle of green perfume. Green tally cards decorated with shamrocks were used.

The table where luncheon was served was prettily decorated in the many emblems of St. Patrick's day. Green ferns and shamrocks composed the flower decorations. The place cards also matched. The luncheon consisted of chicken pates in the shape of shamrocks, coffee and sandwiches. The dessert was ambrosia in green and white colors with whipped cream, and cake. Green mints in the shape of shamrocks were served afterwards. The members present who enjoyed Mrs. Mullinix's hospitality were the Mesdames J. Salinger, E. Olmstead, C. A. Clark, W. V. Conklin, L. J. Swope, M. Skinner, Dr. J. Boege, Fred Marsh, Dr. Flood, Hessel, Mesede.

EL MODENA Demonstrates That There is Plenty of Valuable Fluid in That Section

EL MODENA, March 30.—Wade Flippin has a crew of men working on his well which caved in some time ago. He is putting in larger casing and expects to increase the capacity of his plant very much.

Geo. Bartley and M. Thomas are putting in larger pump in their well also.

Mr. Lancaster also found it necessary to get a large engine. He now is able to throw at least 35 inches from this one well and he has two others thought to be even better than the one tested.

The John T. Carpenter Water Co. is arranging to put down a well soon. The "witches" have been busy, but the company has not yet definitely decided on the location.

It seems to be a well demonstrated fact that there is water aplenty in this section, and each step in the development adds to the value of the land in this especially favored locality.

M. L. Thomas, who was very ill with rheumatism, which affected his heart, is feeling much better.

The quarantine for scarlet fever is still on at Rev. Moore's.

W. E. Harper is making some changes in the church building.

A. Schultz is painting the Barger house recently purchased near the corner of Vine and Alameda streets.

B. M. Culter has bought an E-M-F automobile.

J. A. Woods has purchased the 5-acre ranch from Clarence Wright, four and a half miles north of El Modena. Mr. Wright is moving to Orange and will build on a lot north of the high school.

BARLEY CROP WILL BE HALF A CROP

FULLERTON, March 30.—Barley in this section will make a half-crop this year, according to grain dealers who have gone over the county. Much of the barley which before the rain, looked yellow and dead, has come up green and is growing rapidly. The condition of the crop is better than expected. There are about 6000 acres in the north part of Orange county sowed to grain.

At Brea City in the old fields north of here ground has been broken for a hotel which will be opened by Mrs. N. F. Alford. Brea is enjoying a steady growth and a number of employees in the field have moved their families there.

Many cases of deafness caused by catarrh have been cured by breathing HYOMEI. It reaches the inflamed membrane, heals the soreness and banishes catarrh, which is the cause of most deafness.

P. C. Vanaman, railroad conductor of Birmingham, N. Y., writes that he was cured of deafness after specialists had failed.

Various Cats

A schoolboy, asked to write an essay on cats, made the following amusing and original statement:

"Cats that's made for little boys and girls to maul and tease is called Maltese cats. Some cats are known by their queer purrs; these are called Purrsonian cats. Cats with very bad tempers is called Angorie cats. Sometimes a very fine cat is called a Magnificat. Cats with very deep feelings is called Feline cats."

RECEPTION GIVEN

BY THE Y. M. C. A.

There was an unusually pleasing affair last night at the First Methodist church when the Y.M.C.A. of this city gave a reception to the young ladies' and gentlemen's classes of the different churches.

The affair was what could be termed an annual get-acquainted social. If any one there did not see the name of every other person present some time during the evening he surely must have been blind, for as the guests assembled each one had his name written and pinned on him. Below the name was the name of a college which that particular person was to represent. Pomona, University of Southern California, Occidental and California were the colleges.

For the first half hour that the guests were assembled Clark's orchestra furnished excellent music to the great delight of everyone. Then a track meet took place between the different colleges. This was really exciting and by the yell one would think that a genuine meet was going on. Perhaps the hammer throw caused more merriment than any other event. This was for girls only, and the way those girls did drive nails wasn't anything slow, for they were required to drive six nails in a block of wood. There were some fingers as well as nails hit in this event.

Occidental won from California, and Pomona from U.S.C. J. G. Morrow and R. J. Hamilton were the judges.

The basketball banner was awarded to the First Presbyterian team by Chas. Robinson, president of the Y.M.C.A. Ben Blee for the team, responded. That team is now the champion of the city in the Y.M.C.A. class.

The following program was then given:

Male Quartet—Harry Warne, John Simmons, Roy Elliot and David Todd. Reading—Rev. Murkett.
Trombone Solo—Ray Donaldson. Address—R. J. Hamilton.
Violin Solo—Otto Schroeder. Reading—Miss Winifred Roberts. String Quintet—Messrs. Elliot, Codling, Smith, Harper and Humphrey.
Vocal Solo—F. W. Hamilton.
Refreshments of ice cream, cake and chocolate were served by a committee that did the work in apple pie order. About 225 were present and if any one of the 225 came with a dull care he certainly must have left

MRS. MCGILL
BROKE DOWN

Gives the Real Facts In Regard to
Her Case and Tells How She
Suffered.

Jonesboro, Ark.—"I suffered a complete break down in health, some time ago," writes Mrs. A. McGill, from this place. "I was very weak and could not do any work. I tried different remedies, but they did me no good. One day, I got a bottle of Cardui. It did me so much good, I was surprised, and took some more.

Before I took Cardui, I had headache and backache, and sometimes I would cry for hours. Now I am over all that, and can do all kinds of housework. I think it is the greatest medicine on earth."

In the past fifty years, thousands of ladies have written, like Mrs. McGill, to tell of the benefit received from Cardui.

Such testimony, from earnest women, surely indicates the great value of this tonic remedy, for diseases peculiar to women. Are you a sufferer? Yes? Cardui is the medicine you need. We urge you to try it.

SEVEN INNINGS;
M'KINLEY WINNER

The Green and Gold athletes of McKinley school gave the Tustin baseball players a terrific jolt by taking the yesterday afternoon's game by a score of 22 to 1.

The game was one of continued slugging on the part of the home boys, the timbering totaling twenty-five hits. Squires and Hadley of the Tustin pitching staff both came in for a touching up. Brown for the locals pitched his usual heady game, allowing but four safe hits off his delivery. Edwards at the receiving end played an excellent game.

Tustin got away with a one run lead in the second, through an error by Pittman in dropping Weber's fly, allowing Hadley to score from third. McKinley's hits in their half of the inning netted three runs. In each succeeding inning runs crossed the pan numbering from one to a half dozen.

This was the strongest looking team the McKinley school has had in the field this year, showing a decided improvement in hitting, base running and fielding.

Following is the score:

An Irishman in Germany

An Irishman in Germany in three seasons has earned nearly half a million dollars on the turf. That is what James H. McCormick, the noted trainer of Sheephead Bay, has accomplished. In 1909 his horses won \$140,000, in 1910 \$125,000, and last year he capped the climax of his endeavors to capture the German money by finishing second to Emperor William's leading winning stable with \$160,000 to his credit. He has forty-six horses in training for this season and will follow up his success.

The basketball team of the Huntington Beach Union High School left here yesterday afternoon for San Pedro, where it will board the steamer Beaver for San Francisco to play against the champions of Northern California, the team having won the basketball championship of Southern California. Painless Dentistry

In the Sunday school teacher's experience the only kind of a dentist she had ever known was a man who pulled or repaired teeth, so when the nice little girl in her class said her father was a dentist the teacher concluded to patronize him. She knew his address and called one day with nerves braced for treatment of an unsound tooth. She was shown into a small workshop, whose sides were lined with big grandfather clocks. "Dentist!" the man exclaimed. "Great Scott, no! I'm a clock mender, but I know how the kid came to make the mistake. People in this trade always call the fellow who makes a specialty of tinkering with grandfather clocks a dentist. The wheels of most grandfather clocks of American manufacture are made of wood, and when the clock stops the worm teeth have to be removed from the wheel and sound teeth put in. So I really do work with teeth and deserve the name of dentist."
